

# Yvan Jaurès Nzali

## Full Stack Developer

Ottawa, Ontario, Canada | [yvanjauresnzali@gmail.com](mailto:yvanjauresnzali@gmail.com) | [github.com/YvanJaures](https://github.com/YvanJaures) | [linkedin.com/in/nzali-yvan](https://linkedin.com/in/nzali-yvan) | [yvanjauresnzali.tech](https://yvanjauresnzali.tech)

---

### PROFILE

Passionate Full Stack Developer specialized in designing and building modern web applications. Proficient in JavaScript technologies (React, Next.js, Node.js) on both frontend and backend, with solid experience in relational and NoSQL databases. Active on GitHub with over 350 contributions, focused on clean, scalable, and maintainable solutions.

### TECHNICAL SKILLS

<b>Frontend</b>	HTML / CSS · JavaScript · TypeScript · React · Next.js · Tailwind CSS · Swift · WPF
<b>Backend</b>	Node.js · Express.js · C# · MySQL / SQLite · SQL Server · MongoDB · Redis · Cassandra · Prisma ORM
<b>Tools</b>	VS Code · Visual Studio · Docker · GitHub · GitHub Copilot · ESLint

### PROJECTS

#### 01 — Emy

[React](#) · [Next.js](#) · [TypeScript](#) · [Tailwind](#) · [Node.js](#) · [Express.js](#) · [SQL Server](#) · [Redis](#) · [Prisma ORM](#) · [Docker](#)

*Full stack web application with modern architecture, server-side rendering, and relational database.*

#### 02 — LinkMe

[HTML/CSS](#) · [JavaScript](#) · [Handlebars](#) · [Node.js](#) · [Express.js](#) · [SQL Server](#) · [Prisma ORM](#) · [Docker](#)

*Social platform enabling user networking with profile management and activity feed.*

#### 03 — Relentless Sneaks

[HTML/CSS](#) · [JavaScript](#) · [Handlebars](#) · [Node.js](#) · [Express.js](#) · [MongoDB](#) · [Vercel](#)

*Sneaker e-commerce website with product catalog, deployed on Vercel with a NoSQL MongoDB database.*

#### 04 — Le Savoir

[WPF](#) · [C#](#) · [SQLite](#) · [Visual Studio](#) · [GitHub](#)

*Desktop application built in C# with a WPF interface and local data persistence via SQLite.*

### LANGUAGES

<b>French</b>	Native language
<b>English</b>	Professionally fluent

### EDUCATION

<b>2024 – 2026</b>	<b>Full Stack Development Program</b> Acquisition of skills in frontend and backend web development, database design, Docker deployment, and software engineering best practices.
